Denise Cox
Matt Johnson, Chair
Thomas Tasker
Rick Turner, arrived at 8:00 p.m.

MEMBERS ABSENT

Julie Creer
Mark Dimond
Mikael Remington

STAFF PRESENT

Tyler West, Parks and Recreation Department
Connie Larson, Recording Secretary

REPORT ON MAY 15th BIKE RIDE

Denise Cox reported on the bike ride that was held last night beginning at the Porter/Walton Park. Officer Snow gave a safety demonstration and led the bike ride. Besides Denise, there was one Boy Scout leader and two Boy Scouts who attended the bike ride, which was a ten-mile ride. It was a windy evening with some rain, which might be the reason more people did not attend.

FIELD TRIP

The Trails Committee met at the trailhead at the top of Parrish Lane at 400 North and 800 East to identify service projects that can be made into a master projects list for the City website. Rick Turner has not been able to meet with George Haddad, but there are several projects that could be completed on his property. Denise Cox reported she checked the Ford Canyon Trail a few weeks ago, and it looked great, but the scrub oak brush near the top needs to be cleared. Kason Chowen would like to clean the Ford Canyon Trail for his Eagle Scout project and put bark chips on the trail.

At the beginning of the Parrish Trail are logs that were previously installed for leveling and to control erosion. More logs could be installed at this area, and this type of leveling should be done at the Freedom Hills Park. The Committee hiked to where the Parrish Trail and Bonneville Shoreline Trails meet, and the Committee agreed a sign should be installed indicating the two trails with an arrow pointing east showing the direction of the Parrish Trail. The Committee viewed where the upper and lower meadows are, and in the canyon of these two meadows is debris that could be cleared out.

PRELIMINARY DRAFT

Centerville City Trails Committee
Minutes of meeting
May 16, 2013

Page 2

1 The Committee walked along the Bonneville Shoreline Trail and observed where areas
2 on the hillside have been dug to make a wider walking path. Larger rocks and possibly large
3 logs need to be placed along the edge of the trail in certain areas to reinforce the slope and
4 prevent further erosion. Matting and native vegetation could also be placed on the slopes. Near
5 the bridge, there was evidence of runoff on the trail that was eroding the trail. A drainage pipe
6 could be installed that would go under the trail, which would divert the water off the trail, and
7 make an underground culvert.

8
9 A 20-foot section of the bridge over Parrish Creek was damaged this past winter from a
10 falling tree. Jacob Huntley will be repairing the damage for his Boy Scout project this summer.
11 Other projects for the bridge would be to clear the tree and branches out of the creek, as this
12 debris could cause flooding in a heavy runoff if the branches become lodged in a culvert
13 downstream.

14
15 At 8:00 p.m., Rick Turner arrived at this meeting.

16
17 Erosion control on the north side of the bridge needs to take place. Rick Turner
18 suggested layering large rocks into the hillside and placing a mesh and do reseeding with native
19 seeds. Tyler West, Parks and Recreation Department, said the cement foundation on the north
20 side needs to be repaired.

21 22 MINUTES REVIEW AND APPROVAL

23
24 Minutes of the April 18, 2013 meeting minutes were reviewed. Chair Matt Johnson made
25 a motion to approve the minutes as written. Rick Turner seconded the motion, which was
26 approved by unanimous vote (4-0).

27 28 NEXT MEETING

29
30 The next Trails Committee meeting will be held on Thursday, June 20, 2013 at 7:00 p.m.
31 at the Public Works Building, 655 North 1250 West.

32 33 ADJOURN

34
35 The meeting was adjourned at 8:50 p.m.
