D. ADJOURNMENT

CERTIFICATE OF POSTING

I hereby certify that this notice and agenda was posted at Centerville City Hall, published on the Utah Public Notice Website, and provided to a newspaper or media correspondent in accordance with the requirements of the Utah Open and Public Meetings Act, including, but not limited to, provisions of Utah Code § 52-4-202.

Jennifer Robison
Centerville City Recorder

CENTERVILLE

CITY COUNCIL

Staff Report
6/3/2025

Item No. 1.
Title: Weber Basin Water Conservation Discussion
Initiated By:
Staff Representative:

SUBJECT:

Representatives from Weber Basin will give a presentation on water sustainability, conservation incentives, and infrastructure planning

RECOMMENDATION:

BACKGROUND:

As part of the City Council's continued focus on responsible growth and long-term infrastructure planning, representatives from the Weber Basin Water Conservancy District have been invited to provide an overview of current and future water-related initiatives. This presentation will include a status update on regional water supply and conservation efforts, as well as a review of current rebate programs available to Centerville residents. These programs aim to promote sustainable water use through incentives for water-efficient landscaping and appliances.

In addition to conservation efforts, Weber Basin staff will address the water-related implications of Centerville's General Plan, particularly the role of higher-density residential development in supporting water efficiency. Multi-family housing, when appropriately located and designed, can reduce per-capita water use and align with regional water sustainability goals. Council may wish to consider how land use decisions can complement the District's efforts to preserve limited water resources while meeting community housing needs.

Finally, Weber Basin will outline its future plans for infrastructure investment and long-term water delivery strategies. As growth continues throughout Davis County, ensuring the resilience and capacity of water infrastructure will remain a priority. Staff recommends the Council use this presentation as an opportunity to ask questions, provide feedback, and explore potential partnerships that support Centerville's strategic goals related to growth, sustainability, and quality of life.
