Bruce Cox, Parks and Recreation Director, will program the sprinklers to not turn on at the Smith Park on Friday evenings, and he will ensure that the power will not shut down at 10:00 p.m.

**PICKLEBALL COURTS UPDATE**

Bruce Cox, Parks and Recreation Director, reported he is working with the Army Corps of Engineers on mitigation of parkland for the construction of the pickleball courts. He is also working with ESI to do a concept plan that will go with the permit to be submitted to the Army Corps of Engineers, and a consultant is helping with the mitigation. The Army Corps of Engineers must approve a permit or redelineate the area before construction on the courts can begin. The plan is for eight courts on the west side of the Community Park. At a future date, there is a possibility of more courts in the northeast corner of the park. The grant for the pickleball courts cannot be applied for until the Army Corps of Engineers issues a permit.

**PADDLE RACK AT ISLAND VIEW PARK**

The Committee discussed the need for a paddle rack for the pickleball courts at Island View Park. The paddle rack allows players to reserve a court by placing their paddles in the rack.

**CHASE LANE POND AREA**

Bruce Cox, Parks and Recreation Director, discussed the road construction project on Chase Lane. This project is to replace utility lines and repave the road. Chase Lane and 400 West are not lined-up correctly, and it is difficult to see cars coming from the south. The changes will give the intersection better visibility.

Parrish Creek empties into a pond near McDonalds. Years ago, the developer of the area, after completing the development, did not continue to pay the taxes on the pond area, and the land defaulted back to the bank. The bank asked the city to take the land back, and the city now owns the swamp. The windstorm last September caused damage to large trees in this area. The city spent over \$65,000 to clean up debris and damaged trees in this area. Residents in the area want some trees replaced for privacy. Mr. Cox reported the city has a conceptual plan to improve the pond area that include plans to reduce the size of the pond, plant some trees, and have a nature path with bridges around the pond.

Ivory Homes is constructing 60 homes east of I-15 and the Frontage Road and south of Lund Lane near the Garlic Farm. This development will, hopefully, bring in more Park Impact Fees. Playground renovations at the Community Park is one of the next priorities on the Parks Capital Improvement Plan. The Parks and Recreation Committee will write a letter to the City Council on the top five priorities for the parks in Centerville.

Chair Dailee Gardner will draft a letter to the City Council that will be signed by Committee members on the top five priorities for the parks in Centerville.

**NEXT MEETING**

The next Parks and Recreation Committee meeting will be held on August 10, 2021 at 7:00 p.m. at City Hall.

**ADJOURN**

At 8:15 p.m., the meeting was adjourned.
